STANLEY.

VIDMAR

For more than 40 years, Vidmar has meant one thing to customers around the world—heavy-duty storage solutions for heavy-duty applications.

Swiss manufacturer A&R Weidemar introduced the first modular-drawer cabinet in the 1940s in the form of a tool crib composed of enclosed steel storage modules that held full-suspension heavy-duty drawers. When introduced to these tool cribs, John Kleinoder, a Brooklyn-based tool and die maker, saw them as the perfect solution for storing metalworking tools. He also saw that they were much more than toolboxes, and knew that their potential market went well beyond machine shops.

In 1958, Kleinoder arranged to manufacture Weidemar cabinets in the United States under the name "Vidmar." In 1962, Vidmar cabinets became part of the first photocopiers made by Haloid Corporation, which would become Xerox Corporation. In 1965, Xerox asked Vidmar to open a plant in Allentown, Pennsylvania. A year later, Kleinoder sold the company to The Stanley Works, now known as Stanley Black & Decker of New Britain, Connecticut.

Today, Vidmar, as the company is now known, still makes all of our products to order at our Allentown facility. In the years that have passed since our inception in 1966, Vidmar has watched the demand for efficient, durable storage continue to grow and grow as businesses and industries become more space-, cost-, and productivity-conscious. Vidmar is a common name in countless fields, including military, automotive, manufacturing, healthcare, heavy equipment, agricultural, power generation/utilities, government, and many more.

Whether it's preconfigured or custom-configured storage cabinets, workstations and technical benching, mobile cabinets and toolboxes, mezzanines, vertical automated storage and retrieval systems, adjustable racking systems, or seating, professionals worldwide depend on Vidmar for productivity improvements that directly contribute to a healthier bottom line. Couple this with a knowledgeable, highly trained team of Territory Sales Managers that can guide, train, and make recommendations on all aspects of the Vidmar product offering—including onsite, no-obligation surveys—and you have a turnkey solution that dramatically reduces the time required between initial concept and final implementation. Superior products, innovative solutions, and an unmatched knowledge base all combine to deliver the type of ROI that's critical to staying competitive in today's market. This winning combination has positioned the Vidmar brand as the market leader it is today.

About Vidmar: A division of Stanley Black & Decker, Vidmar offers storage solutions to all industries, with modular space-saving systems that provide quick, safe access to parts, tools, and supplies. A Vidmar system can maximize valuable floor space while providing an integrated solution for inventory control. Customers can arrange a free analysis of their storage needs by calling 800-523-9462. Detailed information on Vidmar products is available at Vidmar.com

VIDMAR: Table of Contents

SO YOU'VE HEARD THAT VIDMAR OFFERS SOME OF THE WORLD'S TOUGHEST STORAGE SOLUTIONS. BUT BEYOND UNSURPASSED RUGGEDNESS, WHAT ARE THE "BIG BENEFITS" OF CHOOSING VIDMAR? FROM EXTREME SPACE SAVINGS TO INCREASED PRODUCTIVITY, VIDMAR IS THE ULTIMATE USE OF YOUR STORAGE SPACE.

Problem

Have your storage needs outgrown your existing footprint? Are you restricted by limited floor space? Is your inventory unorganized? Does it take you too long to find necessary parts? Do you need to lock and secure valuable equipment? If any of these scenarios sound familiar, Vidmar has your solution.

Solution

Vidmar improves every aspect of your workspace with integrated storage systems engineered specifically for your needs. Ergonomic workstations increase employee safety. Adjustable pallet racking can be managed by one operator in as little as two minutes for inventory of various size and shape. And just two high-density drawer cabinets with custom-configured compartments store the same amount of material as five open shelving units. Simply put, Vidmar makes the most of your storage space.

Benefits

Inventory is given specific, identifiable locations, all within easy reach and full view, meaning fast, efficient retrieval. This allows resources to be redeployed to other areas within the facility for greater productivity and throughput.

Enclosed cabinet storage safeguards against dust, dirt, damage, and loss with locked and secure drawers—your sensitive inventory is never compromised.

And as your storage requirements evolve, Vidmar is right there with you providing flexible modular storage solutions that can be infinitely expanded as your needs change.

"All of the parts are in one place, and the high-dollar electronics are securely locked. Everything is easier to locate and the adjustability of the drawers is priceless. This was one of the smartest investments we could have ever made in the department," says Dallas Volvo Truck Center parts manager Mitch Leone

VIDMAR® MODULAR STORAGE CABINETS ARE THE BUILDING BLOCKS USED TO CREATE OUR FLEXIBLE, SUPER-TOUGH STORAGE SYSTEMS!

Available in eight cabinet housings and six cabinet heights, cabinets can be outfitted with your choice of 27 drawer heights. From there, each of your drawers can be configured with the compartment layout that best suits your storage needs.

Other footprints available contact us for more info: (800) 523-9462.

SELECT HOUSING FOOTPRINT:

For example: ST = 30" W x 27-3/4" D

Standard - ST

27-3/4" D

30" W

SELECT HOUSING HEIGHT:

For example: 0340 = 59" H
The complete housing model number is ST0340

5'

Desk	**Table**	**Bench**	**Standup Work**	**Counter**	**Eye Level**

WHEN DESIGNING OUR LINE OF PRECONFIGURED MODULAR STORAGE CABINETS, VIDMAR THOUGHT OF EVERYTHING!

Based on the cabinet configurations used most today, preconfigured cabinets are available in your choice of housing, height, drawer interior, and color.

The following represent a basic overview of preconfigured housing and heights. Preconfigured cabinets are available in dozens of drawer configurations within each housing and height setup.

OVERHEAD CABINETS

Ideal for existing cabinet storage systems or new cabinet system installations, Vidmar® overhead storage (OS) cabinets provide additional heavy-duty storage space above cabinets. Overhead cabinets are manufactured to the same dimensions as the rest of Vidmar's cabinets, allowing for seamless modular integration into any Vidmar® cabinet solution.

Housing Height:

0110	20.75" (527mm)
0135	24.68" (627mm)

MOBILE CABINETS

Wherever you need to work, Vidmar® mobile storage cabinets are in on the action. Heavy-duty mobile casters make our mobile cabinets easy to move, allowing you to position them exactly where you need them. Vidmar offers preconfigured mobile storage cabinets, or you can custom-build your mobile cabinet in any size and configuration you choose. All Vidmar® mobile storage cabinets require lock-in/lock-out latches or single-drawer release.

*Make any xpress cabinet a mobile cabinet. Contact us for more information: (800) 523-9462

HOW TO ORDER INDUSTRIAL WORKBENCH CUSTOM CONFIGURATIONS

These are the basic steps required for ordering custom workbenches from Lista.

TO ORDER AN EASY-ORDER COMBINATION (workbench with preconfigured accessories):

1 **Select worksurface**
Select the worksurface that best suits your needs from the choices on pages 15. Choose the worksurface length, depth and style that you prefer.

2 **Select below-worksurface accessories or bases**
Select an Xpress Cabinet and bench leg on page 15.

3 **Select colors**
Select a color from the chart on the back cover. Cabinet housing and drawer fronts can be different colors, but drawer interiors are always gray. See colors on page 5.

OPEN BENCH LEGS

• Formed steel leg units predrilled
  for fastening

DRAWER ACCESSORIES

Drawer accessories customize a drawer's interior to your inventory or tools.

- Partitions and dividers can be easily moved and rearranged
- Change interior configurations as inventory or storage requirements change
- Additional accessories not listed are available

DRAWER PARTITIONS

- Partitions span entire width or depth of a drawer
- Slide into slots on drawer walls and fasten to drawer bottom at prepunched locations
- Use with dividers to customize drawer Interiors
- Includes hardware for fastening to drawer bottom

DRAWER DIVIDERS

- Use with partitions to subdivide drawer space

NOTE: Dividers that are 9-1/2" (241mm) long and over are supplied with screws for fastening to drawer bottom.

PLASTIC BINS AND DIVIDERS

- Ideal for storing smaller items
- Bins can quickly be removed for easy handling, issuing, and counting
- Bins can be made smaller with dividers

In any drawer using bins, it is recommended that a single side-to-side partition be installed.

Snap-on plastic label holders and paper labels must be ordered separately.
